Yes, it was from the storm sewer outfall near Hurricane Creek, the one we were trying to locate the day of the site visit. Also, yes this is the outfall associated with the storm sewer that traverses east across the Former Amphenol Property.

Sincerely,

Thanks.

Are you sure this was a storm sewer outfall and if so, is this the one that the 980 property discharges to?

Subject: FW: Lab Report

Hi Carolyn. I received this analytical report from Rick earlier today. The sample was obtained by City of Franklin personnel directly from the storm sewer outfall, located east of Glendale Avenue and Ross Court.

Let me know if you have additional questions regarding the sampling location.

Sincerely,

Bradley E. Gentry, LPG
